

“Keller products help me manage the details so that I can concentrate on what’s most important — my job.”

As the Director Of Safety & Cargo Claims for Dohrn Transfer Company in Rock Island, Illinois, Aaron Hoste stays on top of complicated regulatory and safety issues that could easily take over his whole job. Keller products give him the edge.

Dohrn Transfer is an Iowa/Illinois all-points carrier serving the Quad Cities, with nine additional terminals. Aaron’s duties include coordinating safety and cargo claim programs for 300 power units and almost 400 drivers. In addition, he handles lots of hiring, training, and accident investigation issues.

With responsibilities like that, Aaron saves time and stress by using products like Keller’s *Fleet Safety Compliance Manual*, custom logs and DVIRs, and Keller’s *Driver File* software.

“Being a KellerOnline® subscriber helps me meet one of my biggest challenges, keeping up with regs.” Aaron says, *“If I don’t, by the time I know something is wrong, it’s too late. KOL’s a real value.”*

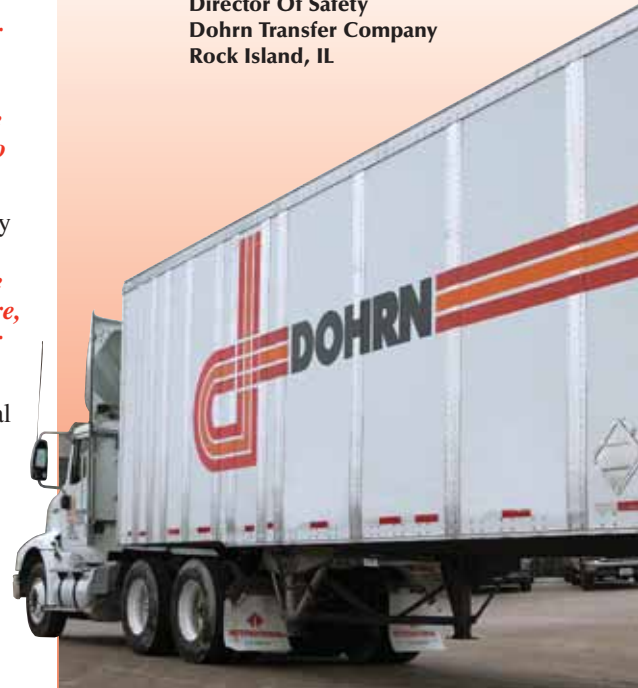

As a loyal Keller customer for many years, Aaron observes, *“I like the competitive prices and service. I’ve looked at other companies out there,*

but if their prices are lower, their level of customer support is too. My customer service representative is wonderful – always pleasant and prompt.”

If you’re like most managers today, and find work details are straining your actual work hours, take a tip from Aaron and see how Keller products can help you streamline the process so that you’re always on top of the big picture.

“When I place an order with Keller, I can count on it arriving in just a few days — right when I need it.”

Aaron Hoste
Director Of Safety
Dohrn Transfer Company
Rock Island, IL

Some of the many Keller products Aaron uses

Benefits received

Fleet Safety Compliance Manual	Puts plain-English compliance explanations at his fingertips.
KellerOnline®	Gives him timely notice of reg changes.
Keller’s Driver File™ Software	Helps him verify required paperwork for each driver’s file and track accidents.
Custom Imprinted Scannable Logs	Speeds up required paperwork for his drivers — and simplifies auditing.

“It’s good to know that Keller’s there watching regs, especially for companies with smaller fleets.”
