According to Todd, many customers need help reaching their compliance goals, but aren't sure where to look.

"Early in my career, one of my responsibilities was conducting monthly driver safety talks for the fleets my company did business with. I remember struggling to come up with topics to present and having no one to turn to when my well of ideas ran dry.

"Now, if transport professionals need guidance or resources to help them tackle driver training, log auditing, drug & alcohol testing or virtually any other transport compliance challenge, they'll have a convenient go-to person at the number-one company for compliance, J. J. Keller."
